THE ALCALDE DOES NOT WORK FOR THE EL PASO COUNTY WATER IMPROVEMENT DISTRICT NO. 1 EL "ALCALDE" NO TRABAJAR PARA EL PASO COUNTY WATER IMPROVEMENT DISTRICT NO. 1

The scheduled days shown for your Group does not mean you can irrigate on all three days shown. Community Ditches are scheduled to irrigate on a certain day at a certain time. The Alcalde must pickup the irrigation water within one (1) hour of the scheduled time or the turnout will be locked. If you miss your scheduled date and time, you can not irrigate until the next scheduled date and time. If you have any questions, please call the Small Tract Coordinator at 872-4012. You are not allowed to use a hose of any type to siphon irrigation water from any lateral. If the Alcalde has property on the community ditch, their account must be paid before the irrigation season starts or the entire community ditch will not receive the irrigation water. Your community ditch and the banks must be kept clean at all times. The Alcalde needs to notify the dispatcher (872-4029) if the community ditch will NOT pickup the irrigation water. The Alcalde needs to notify the dispatcher when they are finished irrigating. The Alcalde or their designated assistant cannot close their turnout (unless you are done watering) or reduce the flow of the water or the District will lock the turnout. Once the turnout is closed down, the District will lock the turnout until the next scheduled irrigation.

Los días mostrado para su Grupo no significa que pueden regar los tres días. Acequias de Comunidad tienen un cierto día y una cierta hora para empear a regar. Si no empiasan a regar en la fecha y hora para su Acequia de Comunidad, no pueden regar hasta el proximo riego. Si tienen cualquier pregunta, favor de llamar al Coordinador al 872-4012. No se permite usar manqeras de cualquier tipo para recuperar la agua de irrigacion de nuestro canal. Si usted es el "Alcalde" y tiene propiedad en la acequia de comunidad, debe pagar su cuenta antes del comienzo de la temporada de riego, o la acequia de comunidad entera no recibira el agua.
