

June 14, 2010 RESERVOIR LEVEL AND SNOW UPDATE

The snowpack, even at Wolf Creek, is now gone. Flow in the Rio Grande at San Marcial and upstream at Otowi Bridge has been declining. At Otowi Bridge flow is now about 2000 cfs, while at San Marcial it has dropped below 1000 cfs. Storage in Elephant Butte/Caballo dropped about 10,000 ac-ft this past week, and may now have past its seasonal peak.

COMBINED STORAGE Elephant Butte and Caballo June 11, 2010 650,783 acre-feet

WOLF CREEK
