

August 23, 2010 RESERVOIR LEVEL UPDATE

Storage in Elephant Butte/Caballo has decreased to less than 450,000 ac-ft. By the end of the month it is projected to be less than 420,000 ac-ft. However release from Caballo in September will decrease to about half this month's levels, with storage expected to reach its minimum around the middle of October at a level around 100,000 ac-ft lower than in 2009.

COMBINED STORAGE at Elephant Butte and Caballo August 22, 2010 445,847 acre-feet
